

# LW 127

## Lighting stand

This lighting stand has an automatic-brake winch and it is made of steel with black finish. It features foldable legs and an extensible mast (up to 2.8 m).

It supports loads of 70 kg; its firm and balanced base ensures a safe operation.

### Features

- Foldable and extensible lighting stand with automatic-brake winch.
- Made of steel.
- Suitable with many accessories thanks to its 35 mm diameter (male).
- Colour available: Black.

### Uses

- For the elevation of professional lighting material.

### Accessories

AW 137 / AW 215 / AW 237 / AW 2/37 / AW 537 / CP1 / P2 / AW 11 / AW 500.

See more details about our accessories pg. 36-37.

### Load capacity and weight:

Weight: 9.5 kg.  
Minimum load: 25 kg.  
Maximum load: 70 kg.

### Min. and max. height:

Minimum height: 1.17 m.  
Maximum height: 2.80 m.

### Dimensions:

Diameter: 35 mm.  
Unfolded base diameter: 1.87 m.

This lighting stand has an automatic-brake winch that holds up to 70 kg and lifts them at 2.80 m high.

LW 127 is suitable with many accessories thanks to its 35 mm diameter tube.

This strong lifting stand is made of steel for a better resistance.
